

YOUR ROLAND S-1 HAS A NEW BRAIN

SYSTEM ALIVE //
OFFLINE-FIRST
BROWSER ENVIRONMENT

SYNTHESIS UNLOCKED

Zero menu diving.

INFINITE MEMORY

Unlimited local-first
presets.

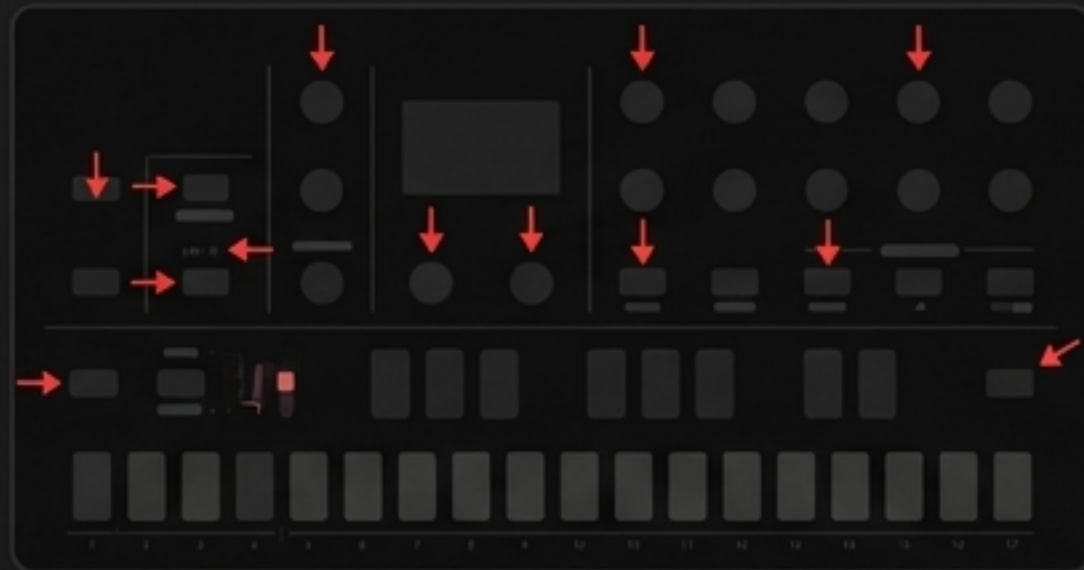

DAWLESS CONTROL

Pro-grade live stage
orchestration.

EXPOSING THE ARCHITECTURE

HARDWARE LIMITS

Button combinations, tiny screens, hidden parameters.

SOFTWARE FLOW

HIGH-RESOLUTION NRPN:
Surgical precision across every parameter.

PERFORMANCE MACROS:
Map multiple parameters to single touch-touch-friendly controls.

A/B VARIATION:
Compare tweaks without losing your place.

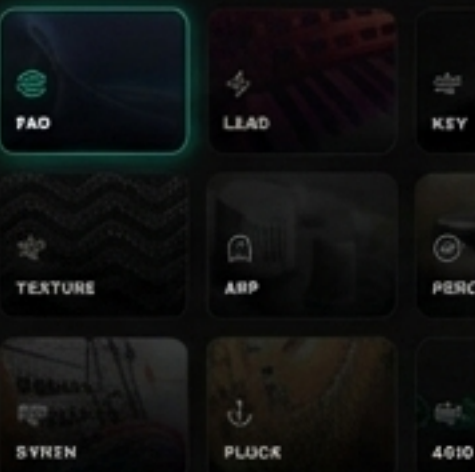

THE EXPERIMENTAL AI CO-PILOT

dreamy ambient pad

GEMINI PROCESSING HUB

Understands S-1's four-voice oscillator architecture. Generates production-ready patches instantly.

SELECT SOUND TYPE

GENERATE

READY FOR LIVE PERFORMANCE.

DIGITAL BREADCRUMBS AND THE CREATOR ETHOS

BREAKING THE 64-PATTERN BARRIER

S-1 Hardware
(64 Slots)

S-1 Hardware
(64 Slots)

UNLIMITED

Bank Seeding

Automatically imports curated Factory Sounds (BANK_DEFAULT.json) if the library is empty on boot.

Patch Notes

Built-in documentation for every sound.

Import/Export

Manage entire banks for different demo sets or gigs.

PARAMETER LOCKS

Automate Cutoff and Resonance per step for incredibly complex, evolving patterns.

ADVANCED ARPEGGIATOR

Fully-featured ARP to build dynamic rhythmic capabilities.

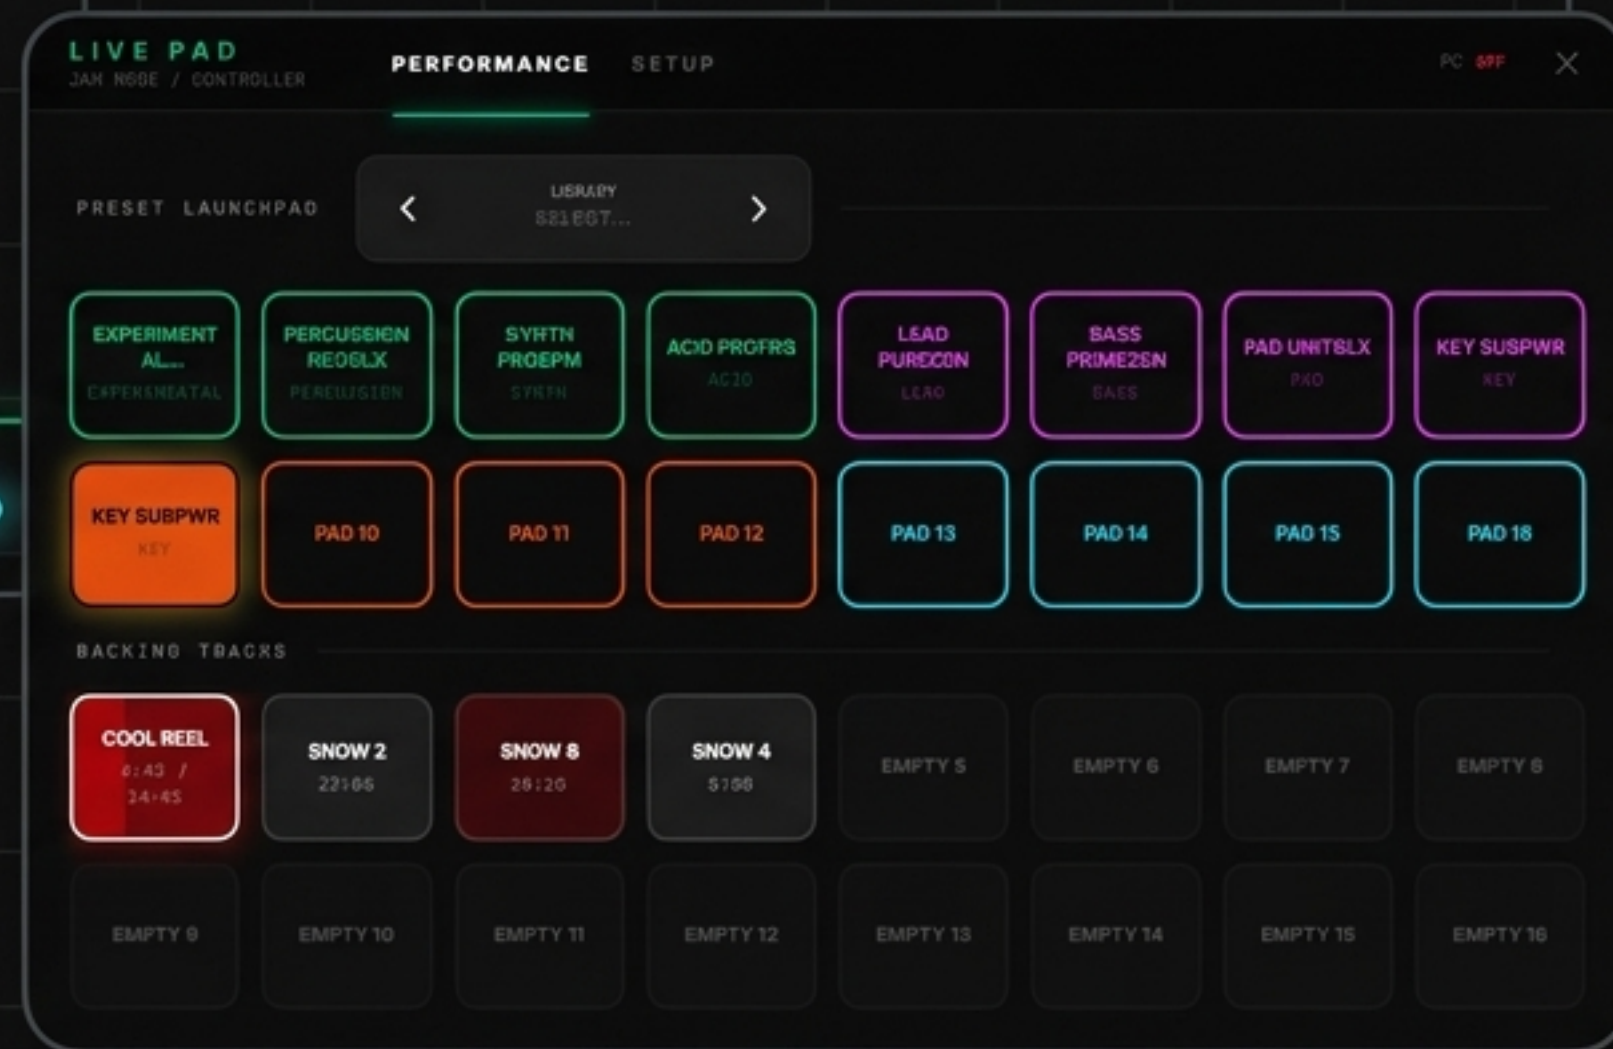

THE CREATOR'S TOOLKIT

Zero effort content generation. Build 100 New Patches videos in minutes using the built-in Audio Visualizer.

COMMAND CENTRAL FOR THE DAWLESS STAGE

HIGH-DENSITY TOUCH INTERFACE

- Zero-Latency Multi-Engine Control.

INSTANT RECALL VIA MIDI PROGRAM CHANGE.

- Real-time visual feedback of active sounds.

**A dedicated Live Set Mode puts sounds and sequences at your fingertips.
The missing link between your controller and your synth.**

CROSSFADE

3s

PROFESSIONAL
PLAYBACK ENGINE

Auto-crossfading between tracks. Local-first WAV/MP3 storage-no Wi-Fi required during the gig.

INTELLIGENT GLOBAL SYNC

THE MULTI-DEVICE MIDI MATRIX

Automatic Device
Detection:
USB-MIDI
Keyboards,
Pedalboards,
External Gear.

Roland S-1 +
External Hardware
Synth
+ Visualizers

EXPERIMENTAL MIDI THRU BRIDGE: Route and filter signals effortlessly.

OPEN-SOURCE WEB ENGINE BLUEPRINT

TIER 1: THE UI

Vue 3 Composition API + Tailwind CSS.
Ultra-fast rendering, touch-optimized,
high-contrast Lucide iconography.

TIER 2: THE CORE

Web Audio API + Tone.js (Low-latency synthesis)
& WebMIDI.js (Complex device management).

TIER 3: THE BEDROCK

Pinia State Management + IndexedDB.
Real-time session persistence.

1. PRE-MOUNT INITIALIZATION

App mounts only after
config loads.

2. CENTRALIZED SEEDING

Auto-populates MIDI CCs,
UI layouts.

3. PERSISTENT PROFILES

Fully deterministic, offline
boot. Zero deadlocks.

THE SY.CORE SUPERCHARGER MATRIX

DIMENSION	STANDALONE S-1 HARDWARE	S-1 + SY.CORE ENGINE
Sound Library & Storage	64 Physical Slots.	Unlimited Browser Storage + Bank Import/Export.
Sound Design Interface	Menu-diving, button combos, hidden features.	High-Fidelity UI, AI Generative Co-Pilot, A/B Variations.
Live Performance	Local playback.	16-Pad Touch Grid, 8-Track Looper, Synced Backing Tracks.
Ecosystem Role	End-of-chain synthesizer.	Centralized MIDI Hub, Multi-device Program Change orchestrator.

SY.CORE LAB: Evolving the Ecosystem

SY.CORE is an evolving, hardware-agnostic ecosystem.

Current Integrations

Roland AIRA Series
Roland AIRA Series (S-1, T-8,
J-6), MIDI Pedalboards,
Touch-screen Surface/iPads.

Coming Soon

Arturia MicroFreak Integration.
Porting unlimited preset
management and generative AI
engines to iconic experimental
experimental architectures.

**Stop just using your synth.
Start mastering it.**
